**Intelligent Lighting
Institute**

Invitation
Tuesday 6 July 2010

Where innovation starts

We are proud to announce the opening of the **Intelligent Lighting Institute** on Tuesday 6 July 2010

This new institute clusters the strengths of six TU/e departments in the field of intelligent lighting. We develop new applications and provide the scientific proof that these applications will do what they promise to do. In other words, Evidence Based Research, combining interaction, psychology and systems. The perception of light, how this is experienced, has not yet been properly illuminated in scientific research. The aim of the institute is to explore and validate new lighting concepts.

Researchers from the departments of Applied Physics, Industrial Design, Industrial Engineering & Innovation Sciences, Electrical Engineering, Mathematics & Computer Science, and Architecture, Building & Planning are involved in the multi-disciplinary research programs. The institute forms the core of a unique cooperation between public and private parties in the field of intelligent lighting.

Dr. Renk Roborg of the Ministry of Education, Culture and Science, and ir. Klaas Vegter of Philips Lighting, will give their views on the importance of investing and innovating together. The opening of the Intelligent Lighting Institute is a key step forward for our university in the Brainport top technology region.

On behalf of the Executive Board and the researchers of the Intelligent Lighting Institute, I warmly welcome you to this festive opening.

Prof.dr.ir. Hans van Duijn
Rector Magnificus

Program

16.00 hrs Word of welcome and introduction of the research ambitions by **prof.dr. Emile Aarts**, Scientific director of the Intelligent Lighting Institute, professor at the TU/e department of Industrial Design and Vice President of Philips Research

Speakers: **Dr. Renk Roborg**, Director general higher education, vocational education, science and emancipation at the Ministry of Education, Culture and Science

Ir. Klaas Vegter, Chief Technology Officer of Philips Lighting

Prof.dr.ir. Hans van Duijn, Rector Magnificus of TU/e

17.30 hrs Festive opening and drinks

Registration

You can register for the opening via the form on our website: **www.tue.nl/ILI** or by sending an email to **ILI@tue.nl** stating your name and organization.

Location

Cinema De Zwarte Doos
Eindhoven University of Technology
Den Dolech 2
5612 AZ Eindhoven
